

Sage 100 Contractor

Everything You Need to Know

Sage 100 Contractor 2014 Documentation

Before you install Sage 100 Contractor, review the *Installation and License Administration Guide* for your country. It provides detailed information about installing and setting up Sage 100 Contractor in your specific environment. It also provides information on setting up and administering licenses.

- [U.S. Edition](#)
- [Canadian Edition](#)

After installation, read the following guides for more in-depth information. These documents are also available after installation in **Home & Resources tab > Product Documentation**.

Use the following links to view documentation for the U.S. Edition:

- [Sage 100 Contractor User Guide](#) is a printable-PDF version of the Sage 100 Contractor Help. It provides detailed explanations of Sage 100 Contractor functions and tools as well as hundreds of procedures for completing tasks.
- [Sage 100 Contractor and Your Business](#) provides basic information about key relationships in your business and how they interact with Sage 100 Contractor.
- [Sage 100 Contractor Product Overview](#) provides background information to help you understand the core functionality of Sage 100 Contractor and how to use it to manage your business.
- [Sage 100 Contractor Release Notes](#) provides information about enhancements and reported issues in the software that have been resolved for the current release.

Use the following links to view documentation for the Canadian Edition:

- [Sage 100 Contractor User Guide](#) is a printable-PDF version of the Sage 100 Contractor Help. It provides detailed explanations of Sage 100 Contractor functions and tools as well as hundreds of procedures for completing tasks.
- [Sage 100 Contractor and Your Business](#) provides basic information about key relationships in your business and how they interact with Sage 100 Contractor.
- [Sage 100 Contractor Product Overview](#) provides background information to help you understand the core functionality of Sage 100 Contractor and how to use it to manage your business.
