Payroll Tax Updates

The following federal, state, and local tax changes are included in this update.

Federal Legislative Updates

There are no federal legislative updates with this release.

State and Local Legislative Updates

This section lists state and local legislative updates available with this release. If a state or locality is not listed in this section, there are currently no tax updates or product modifications for that state or locality.

Note: Sage HRMS U.S. Payroll includes some system-supported State Disability Insurance (SDI) codes, which are updated automatically (for example, with rate changes) when you install product updates. To use these codes, your SDI codes must match the system-supported codes.

If you use custom tax codes to capture SDI taxes, note the following:

- If your codes match the system-supported tax codes, you should review the tax code setup before processing payroll.
- If your codes do not match the system-supported tax codes, you can switch to using the system-supported codes. To do this, you must deactivate your custom tax codes, and then set up the system-supported tax codes.
- Regardless of whether or not your codes match the system-supported tax codes, you must follow your existing procedures for reporting and filing SDI taxes as custom taxes.

Information about changes to specific system-supported SDI codes is included in the sections for the related states.
