Yes

¹ You need a service plan that includes payroll.

² You need a service plan that includes Sage HR.

Resolved Issues

The following issues have been resolved:

(Pro Accounting and higher) When adjusting a vendor prepayment, you could change the vendor and re-use a prepayment number already posted by the newly selected vendor. This would result in duplicate prepayment numbers for the same vendor. Similar behaviour occurred with customer deposits.

(Pro Accounting and higher) In multi-user mode or as a user without full accounting rights, when changing the session date to the next calendar year, the wrong date would be displayed in the message if the company's fiscal year was beyond the current calendar year.
