DE 102767

Library Master

- 1 For Payroll eFiling and Reporting new Ohio Tax Types have been added.
DE 103889

- 2 All Sage 100 Reports will be installed with this Update. These reports will have all occurrences of the Microsoft Sans Serif Bold and Italic fonts replaced with Arial Bold and Italic Fonts . The fonts are being replaced to improve report performance and decrease the size of .PDF files generated from Paperless Office.
- Report (.RPT) Keywords updated to 5.10b
 - Microsoft Sans Serif 'regular' fonts will not be changed
 - Font Sizes will not be changed
 - Font Types will not be changed (Microsoft Sans Serif BOLD will change to Arial BOLD)
 - The PU install will replace all Sage 100 'standard' reports in the MAS90\Reports directory with updated reports. Please make a backup of any modified Sage 100 'standard' reports located in the MAS90\Reports directory.
 - User customized reports located under the MAS_XXX\reports or MAS_System\ directories or user created reports will not be affected by the PU install.
 - User modified reports run from the launcher will generate a prompt to update the report the first time accessed from the Sage 100 launcher, a backup of the original pre-converted report with the file extension .RP_ will be created.

The majority of report font changes will be:

- Report Header Information
- Page Footer Information
- Report Detail Column Headers and Report field descriptions.
- Customer actual data will not change

Note* Users who do not want the fonts on their customized reports changed must update the .RPT Keywords from "Converted to version 5.10" to "Converted to version 5.10b", preferably prior to installing the PU.

The Keywords can be modified manually via the Crystal Designer or utilizing the Sage 100 Report Conversion Utility. Prior to installing 2014 PU1 (5.10.1.0),

- Modify \mas90\home\masrcrw.ini

```
FROM      TO
[Version] [Version]
Key=5.10  Key=5.10b
```

- Execute \mas90\home\masrcrw.exe
- Point to the directory where the reports are stored

DE 102765

- 3 GL Account Number entry in report selection grids now have the same formatting as other GL Account fields.

DE 102616

- 4 "Another version of this product is already installed. Installation of this version cannot continue." message no longer occurs when attempting to run Sage 100 ERP 2014 Standard Workstation Setup on a system that also has Sage 100 ERP 2013 Standard Workstation Setup Installed.

DE 102791 KBId 32407

- 5 For eFiling and Reporting the version has been updated and new Tax Types added for Local Tax reporting.

DE 102812

- 6 Columns are no longer renamed after executing a customizer script.

DE 102714

- 7 Users are now able to kill tasks from Master Console.

DE 102119 KBId 49012

- 8 MS Office 2013 64 bit users are now able to export data to Microsoft Access Database (.accdb) from Business Insights Explorer.

There are two required components:

1. An updated Sage 100 ERP exapp.exe program that is automatically installed with Sage 100 ERP 2015.
 2. The x86 (32 bit) version of the Access Database Engine.
 - a. This can be downloaded and installed using the following link
<http://www.microsoft.com/en-us/download/details.aspx?id=13255>
 - i. Click download
 - ii. Select AccessDatabaseEngine.exe (x86 version of drivers)
 - iii. Click Next
 - iv. When asked to Save or Run, select Run and follow the installation instructions.
 - b. If the x64 version of the database engine is installed you will not be able to install the x86 version of the database engine required for Sage 100 Business Insights Explorer. To resolve, uninstall the x64 version via Control Panel\Programs and Features then install the x86 version of the database engine.
- DE 102487 KBId 53091
