# Product update release notes

Thank you for choosing a Sage business management solution.

These release notes contain important information about Singapore Tax Reports, including information about product changes that are not in the documentation.

## About product updates

Product updates contain modified versions of one or more program components. A product update is not a full upgrade or a product replacement. Each product update is valid only until we release the next product update or the next version of Singapore Tax Reports.

Product updates are cumulative. This means that all previous updates for this product and version, and any hot fixes or patches previously released are incorporated into this update.

## Software requirements

To use Singapore Tax Reports 6.6C, you must have Sage 300 2019.2 or later.

# What's new in 6.6C

This product update includes the following new features and improvements.

## Customer accounting (reverse charges)

When creating purchase invoices for prescribed goods, you can enter reverse charges.

## New reports

The following reports are now available:

- ARDINVO-SGGST.RPT
- OEARN01-SGGST.RPT
- OEINV04-SGGST.RPT
