### **Enhancements and Corrections**

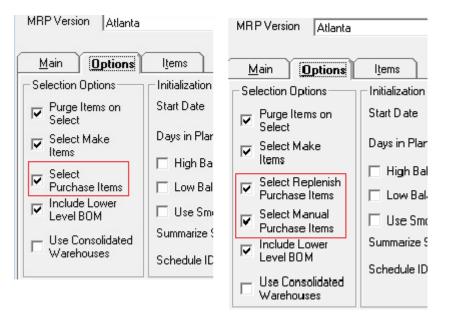

The following is a list of enhancements and corrections that have been incorporated into this Sage 500 ERP 2019 Product Update.

\*Indicates a new enhancement or program fix in this Update. All new to Product Update 3 have been consolidated under one section "Product Update 3".

### Enhancements

**Enhancement:** This issue changes the "Material Requirements Planning Generation" form's "Options" tab "Selection Options" frame by replacing one existing checkbox with two checkboxes. Refer to Issue ID 50404 below.

Available: Product Update 1

MRP uses the inventory management module's replenishment system. The IM replenishment system does not process inventory items that have a reorder method of "Manual". MRP picks up such items in its processing. This led to a situation where MRP selection would pick up items for which it cannot generate actual orders. Depending upon your point of view, this could be considered good or bad. For those who do not wish to include items that cannot yield an actual order, this change allows a user to skip inventory items that are configured for manual replenishment, while still allowing the previous behavior.

By checking both checkboxes on the new version, you will get the same behavior as the previous version. Both checkboxes are checked by default. Should you choose to keep both checkboxes checked and the system detects that manual items are included in a planned order run, the system will now display a new warning message on the Messages tab of the MRP Requirements Planning Inquiry indicating the item must be manually replenished.

S Material Requirements Planning Inquiry - C				
📕 C° 🕜 🖑 🐯 🎇				
Item Summary	Period Summary	Iransaction Detail	Planned Orders	Messages
- View Messages With:		1		
Severity All Type All Type All Clear Messages Clear Messages				
Severity Message Type				
Notification Selection	MRP Version: Mojo Selected:	: 2 No. Items: 1 No. Detail : 0		
Notification Initialization MRP Version: Mojo Initiated: 2 No. Items: 1 No. Detail: 0				
Notification Initialization Completion MRP Version: Mojo Completed: 2 No. Items: 1 No. Detail : 2				
Warning PO Plans Planned Order 1899 is for Required amount. No replenishment configuration was found for item				
Warring PO Plans  Planned order 1899 for "Manual Item" in "Rialto" must be manually replenished. Planned order is shown for reference only.				

The approach taken for this issue was to allow those who like the previous behavior to keep it, while allowing those who prefer to only process replenishment items that can generate an actual purchase order to skip manually replenished items.

## \*Product Update 3

Issue ID	Module	Short Description	Objects Modified - Client	Object Modified - Database
50481	DP	Error when trying to import Sales Order using Data Porter	DPZUA002.cls, sozdj101.frm, sozdj101.exe	Fix_DP_Metadata_For_SO_Entry_Ite m_Lookup.SQL
50479	DP	Dataporter only imports Quantity of 1	DPZUA002.cls, sozdj101.frm, sozdj101.exe	Fix_DP_Metadata_For_SO_Entry_Ite m_Lookup.SQL
50477	MultiM odule	Doc Transmittal using SMTP with Require Credential and Use SSL fails with TLS 1.0 disabled	SMTPMailer.cs, EmailUtilFx.dll	
50469	FrmWrk	Doc Transmittal with Exchange when TLS 1.0 is disabled fails	ExchangeMailer.cs, EmailUtils.cs, EmailUtilFx.dll
