# Enhancements and Corrections

The following is a list of enhancements and corrections that have been incorporated into this Sage 500 ERP 2019 Product Update.

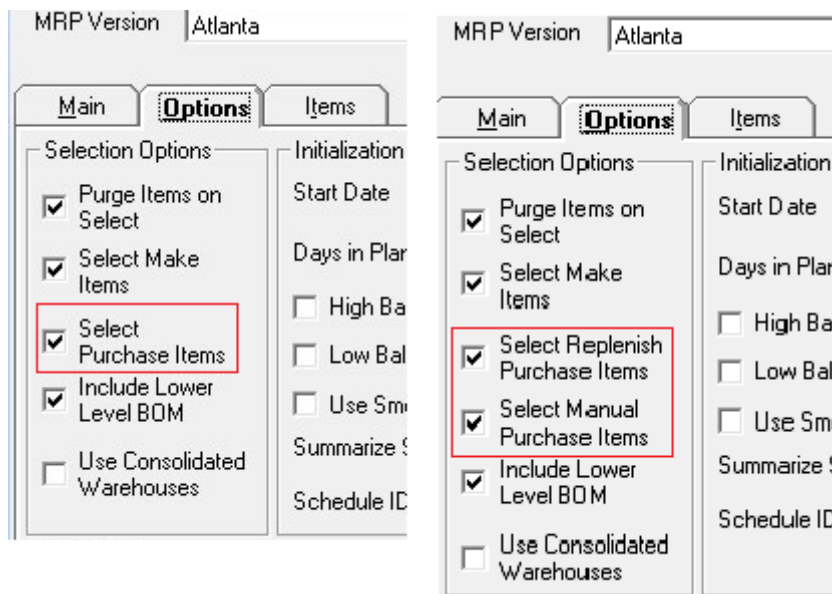

**\*Indicates a new enhancement or program fix in this Update. All new to Product Update 7 have been consolidated under one section "Product Update 7".**

## Enhancements

---

**Enhancement:** This issue changes the "Material Requirements Planning Generation" form's "Options" tab "Selection Options" frame by replacing one existing checkbox with two checkboxes. Refer to Issue ID 50404 below.

Available: Product Update 1

MRP uses the inventory management module's replenishment system. The IM replenishment system does not process inventory items that have a reorder method of "Manual". MRP picks up such items in its processing. This led to a situation where MRP selection would pick up items for which it cannot generate actual orders. Depending upon your point of view, this could be considered good or bad. For those who do not wish to include items that cannot yield an actual order, this change allows a user to skip inventory items that are configured for manual replenishment, while still allowing the previous behavior.

By checking both checkboxes on the new version, you will get the same behavior as the previous version. Both checkboxes are checked by default. Should you choose to keep both checkboxes checked and the system detects that manual items are included in a planned order run, the system will now display a new warning message on the Messages tab of the MRP Requirements Planning Inquiry indicating the item must be manually replenished.

S Material Requirements Planning Inquiry

Item Summary    Period Summary    Transaction Detail    Planned Orders    **Messages**

View Messages With:

Severity: All    Type: All    Print Messages    Clear Messages

Output: Printer

Severity	Message Type	
Notification	Selection	MRP Version: Mojo Selected: 2 No. Items: 1 No. Detail : 0
Notification	Initialization	MRP Version: Mojo Initiated: 2 No. Items: 1 No. Detail : 0
Notification	Initialization Completion	MRP Version: Mojo Completed: 2 No. Items: 1 No. Detail : 2
Warning	PO Plans	Planned Order 1899 is for Required amount. No replenishment configuration was found for item
Warning	PO Plans	Planned order 1899 for "Manual Item" in "Biallo" must be manually replenished. Planned order is shown for reference only

The approach taken for this issue was to allow those who like the previous behavior to keep it, while allowing those who prefer to only process replenishment items that can generate an actual purchase order to skip manually replenished items.

**Enhancement:** Visual Process Flow changed to not use Flash

Visual Process Flows have been updated to remove the use of Flash. A result of the change may be that your internally defined Process Flows may be misaligned or text may not be visible depending on how they were defined and how they will display in the new HTML5 layouts. You may need to edit them to get them looking the way you want.

Refer to Issue ID 50571 below.

Available: Product Update 5

## \*Product Update 8

---

Issue ID	Module	Short Description	Objects Modified - Client	Object Modified - Database
50690	AP	1099 TY 2022 Update – v2019	ap1099SvcAtx.frm	spapProcess1099_TaxSvc.sql spapSubmit1099_TaxSvc.sql ap1099Update2022.sql

50414	SO	In Enter Sales Orders and Quotes, the map button for MapQuest is no longer working	MapButton.ctl, buttoncontrols.ocx	50414_New Local Strings.sql

# Installation Instructions

---

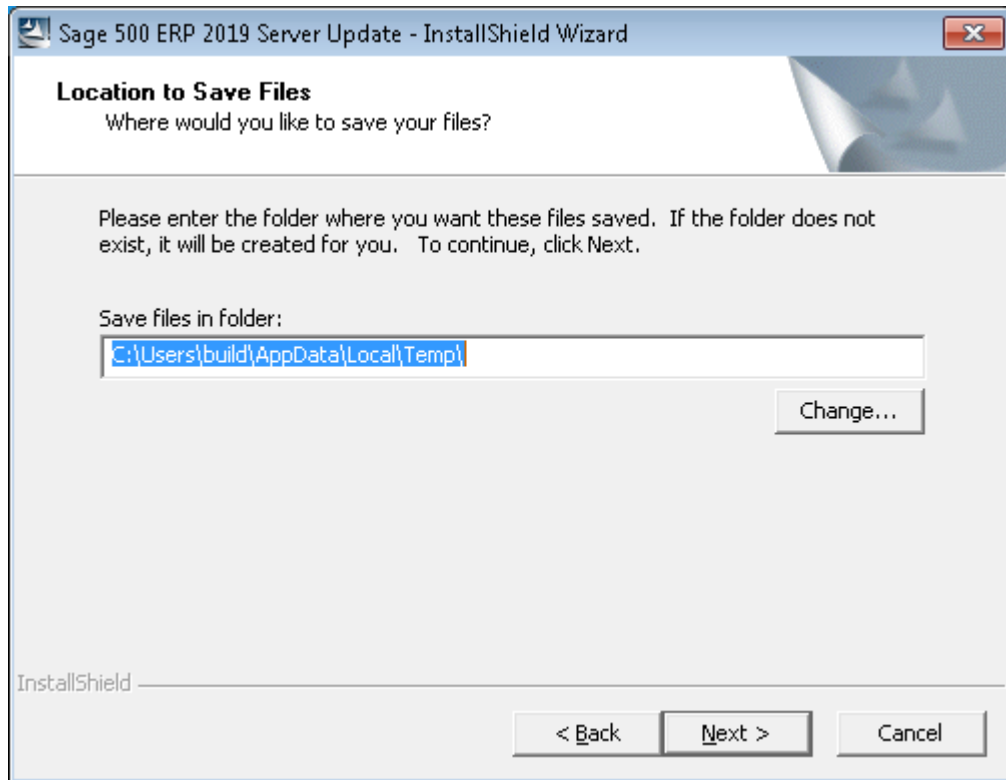

## Installing the Server

**Note: All users must log out of the Sage 500 ERP applications prior to installing the server update.**

1. To begin the Sage 500 ERP 2019 Server installation, double-click **2019PU7S.exe** and click **Next** to proceed.

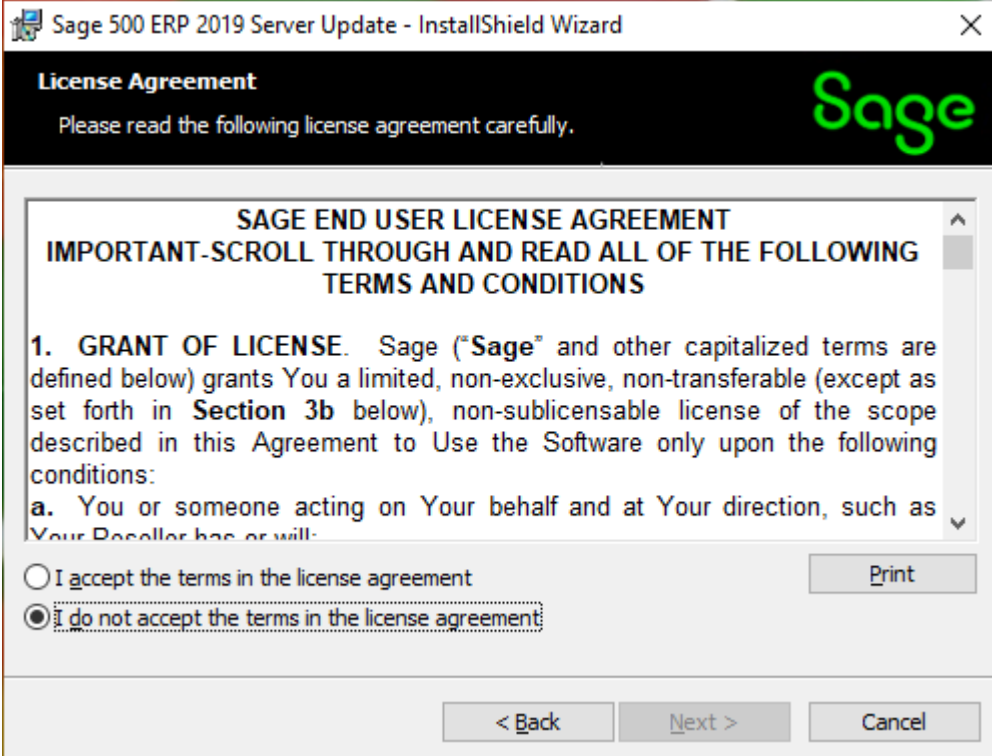

2. Indicate the location to which the installation files should be saved. Select the default location, or select **Change** to browse to a different location.

3. At the welcome screen, select **Next** to continue, or **Cancel** to exit setup.

4. Read the License Agreement, select the Accept option and click **Next** to continue.

The screenshot shows a window titled "Sage 500 ERP 2019 Server Update - InstallShield Wizard". The window has a black header bar with the Sage logo on the right. Below the header, the text "License Agreement" is displayed in white, followed by "Please read the following license agreement carefully." in a smaller font. The main content area is a scrollable text box containing the following text:

**SAGE END USER LICENSE AGREEMENT**  
**IMPORTANT-SCROLL THROUGH AND READ ALL OF THE FOLLOWING TERMS AND CONDITIONS**

**1. GRANT OF LICENSE.** Sage ("Sage" and other capitalized terms are defined below) grants You a limited, non-exclusive, non-transferable (except as set forth in **Section 3b** below), non-sublicensable license of the scope described in this Agreement to Use the Software only upon the following conditions:

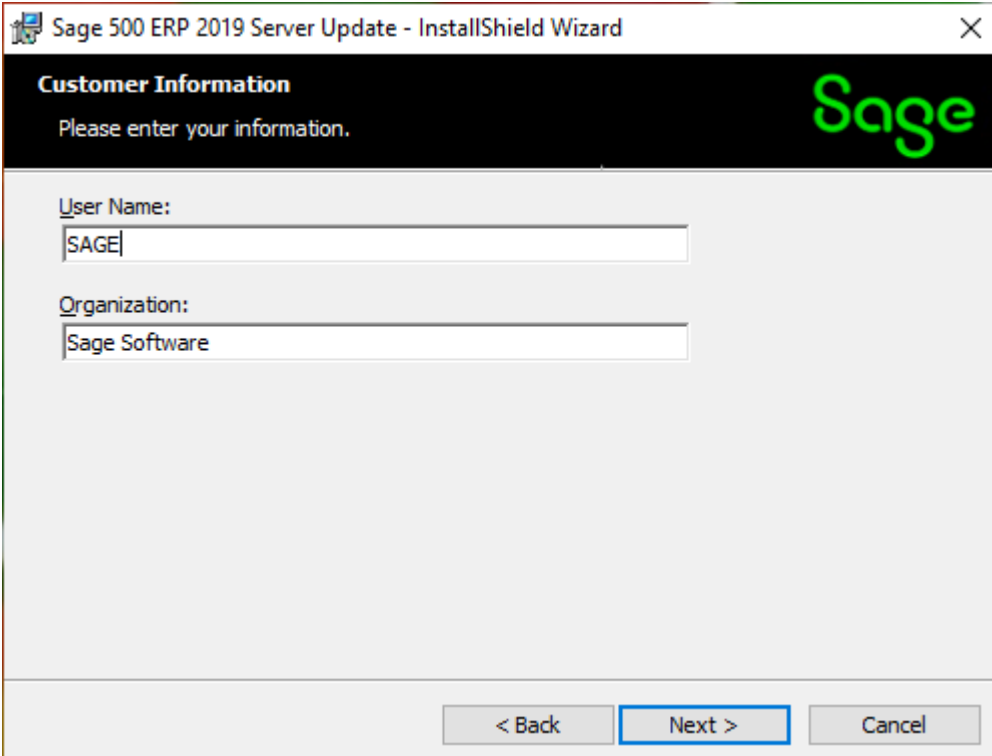

**a.** You or someone acting on Your behalf and at Your direction, such as Your Reseller has or will:

Below the text box, there are two radio button options:

- I accept the terms in the license agreement
- I do not accept the terms in the license agreement

To the right of these options is a "Print" button. At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel".

5. Enter the User Name, Organization, and click **Next** to continue.

The screenshot shows a window titled "Sage 500 ERP 2019 Server Update - InstallShield Wizard". The window has a black header bar with the Sage logo on the right. Below the header, the text "Customer Information" is displayed in white, followed by "Please enter your information." in a smaller font. The main content area contains two text input fields:

User Name:  
SAGE

Organization:  
Sage Software

At the bottom of the window, there are three buttons: "< Back", "Next >", and "Cancel". The "Next >" button is highlighted with a blue border.

6. Select **Complete** and click **Next** to continue.

7. Click **Install** to continue.

8. At the completion screen, click **Finish** to complete the Sage 500 ERP Server installation.

9. If you receive a message to restart the system, click **Yes** to continue. After the system has been restarted, select **Sage 500 ERP 2019 Product Update 7** from the Sage 500 ERP 2019 program group.

10. Enter the SQL Server Name and SQL Server sa password, select **Proceed** to continue.

11. Enter the name of the Sage 500 ERP Application Database and select **Proceed** to continue.

12. This confirmation dialog will display; select **OK** to continue.

13. After applying the update to the Sage 500 ERP Database, you may view the updates by clicking **Yes** at the following dialog box:

# Installing the Client

1. To begin the Sage 500 ERP 2019 Client installation, double-click the **2019PU7C.exe**. A screen similar to the one below will display, click **Continue** to proceed.

2. At the Welcome screen, click **Next** to continue.

3. At the completion screen, click **Finish** to complete the Sage 500 ERP Client update installation.
