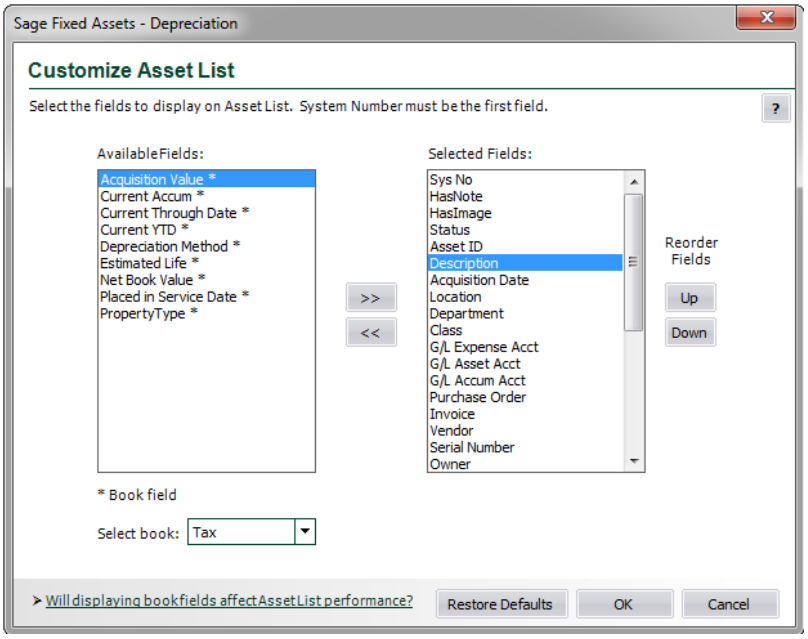
Features

In this release, Sage is excited to announce the addition of the following new features. Refer to the table below to see which features are applicable to your Sage Fixed Assets products.

Products	Features		
	Customize the Asset List	Installation improvements	Sage Advisor Update
Sage Fixed Assets Depreciation (Premier, Network and Standard)	✓	✓	✓
Sage Fixed Assets Tracking (Premier, Network and Standard)		✓	✓
Sage Fixed Assets Planning (Premier, Network and Standard)		✓	✓
Sage Fixed Assets Lite Depreciation			✓
Sage Fixed Assets Lite Depreciation for Sage 50			✓

Customize the Asset List

With the new Customize Asset List window (**Customize > Asset List**), you select the fields you want displayed on Asset List. You can display up to nine book fields for all the assets on Asset List. In addition, you can easily remove and reorder fields that are displayed.



Installation improvements

The Sage Fixed Assets installation process now includes all Sage Fixed Assets products; Depreciation, Tracking, and Planning. This expedites the installation process for companies that purchase multiple products. Each unpurchased product comes with a free 30-day trial period, which allows you to open and explore them as desired.

Sage Advisor Update

After installing this release (2017.0), all Sage Fixed Assets products listed in the above table will include Sage Advisor Update. Sage Advisor Update is a program that recognizes your installed products and notifies you of available releases. This feature makes it easier than ever to keep your products current—simply download the latest release from Sage Advisor Update when notified.

Enhancements

With this release, Sage made the following customer requested enhancements. Refer to the table below to see which enhancements are applicable to your Sage Fixed Assets products.

Products	Enhancements			
	Transfer report	Submit or view product ideas	Easier import to Sage 100 Premium	Streamlined Audit Advisor reviews
Sage Fixed Assets Depreciation (Premier, Network and Standard)	✓	✓	✓	✓
Sage Fixed Assets Lite Depreciation		✓	✓	✓
Sage Fixed Assets Lite Depreciation for Sage 50		✓		✓
Sage 50 Fixed Assets		✓		✓

Transfer report

Now you can choose your own custom date ranges for the Transfer report. Based on the **From** and **To** dates you enter, the Transfer report will display the transfers that occurred during the given date range.

Submit or view product ideas

Submit and view product ideas through the new Sage City Ideas page. This platform allows you to view and vote on ideas submitted by other users, and to contribute your own ideas on what features you would like to see in the product. In Sage Fixed Assets, go to **Help > Contact Us > Submit** or **View Product Ideas**.

Easier import to Sage 100 Premium

You can now import depreciation transactions from Sage Fixed Assets to Sage 100 Premium without editing the export file.

Streamlined Audit Advisor reviews

You will no longer see the following reviews when running Audit Advisor in a U.S. company because they are irrelevant:

- Transfers with 168 Allowance in Placed-In-Service (PIS) Year (only in Sage Fixed Assets Depreciation)
- Light Trucks and Vans
- Increased 168 Allowance %

Fixes

With this release, Sage made the following fixes to Sage Fixed Assets Depreciation (Premier, Network and Standard), Sage Fixed Assets Lite Depreciation, Sage Fixed Assets Lite Depreciation for Sage 50, and Sage 50 Fixed Assets.

Ghost connections

Sage added a two-minute timeout check to Sage Fixed Assets\Network to fix the issue where a user connection may have remained open, even though the user was not in the program.

Company list

Sage has improved the loading performance of the company list from the Backup Company and Restore Company dialog boxes for databases with very large numbers of companies (i.e. 8,000+).

Reports

PDF column headings

Report headers are now readable when you print to PDF on a Citrix® network.

Global Task Manager

Sage Fixed Assets Depreciation (Premier) now prints reports directly to a printer from Global Task Manager if you are using a Citrix® network.

Depreciation Expense report (Premier only)

The Depreciation Expense report is no longer missing data when you configure it to use **Other Date** through the Global Task Manager.

Sage 300, Sage 300 CRE, Sage 100 and SFA Depreciation with custom Crystal Reports

Sage Fixed Assets custom reports can now be opened from the Reports menu and from Report Writer.
