Sage Fixed Assets Lite Depreciation for Sage 50, and Sage 50 Fixed Assets	✓		
Sage Fixed Assets—Tracking (Premier, Network, and Standard)	✓		✓

*Subscription plans only

My Asset List Views

Effortlessly change the data in the Asset List to display what you need. My Views allows you to save different views of the Asset List and switch between them. The views are available to use across companies.

Sage Intacct Accounts Payable module integration

Subscription plans only

Easily create assets in Sage Fixed Assets from the Accounts Payable (AP) module in Sage Intacct. After creation, you can open and view an asset's related AP bill in Sage Intacct with the click of a link within Asset Detail.

Sage Intacct AP

Follow the steps below to import data from Sage Intacct and create assets. Click the Open Company button to open the selected company. [User Guide](#)

Step 1: Select a Sage Fixed Assets Company

Database: <DEFAULT> Company: CafeNoir Too USA 1 Entity: 100 - USA 1

Step 2: Select items to create assets

Enhancements

With this release, Sage made the following enhancements. Refer to the table below to see which enhancements apply to your Sage Fixed Assets products.

Products	Enhancements				
	SFA Scanner v2.1	Export Asset History Events report to Excel	Asset Created history event	Client label on Windows install	Sage 300 complex password support
Sage Fixed Assets—Depreciation (Premier and Network)		✓	✓	✓	✓
Sage Fixed Assets—Depreciation (Standard)		✓	✓		✓
Sage Fixed Assets—Lite Depreciation			✓		✓
Sage Fixed Assets—Tracking (Premier and Network)	✓		✓	✓	
Sage Fixed Assets—Tracking (Standard)	✓		✓		

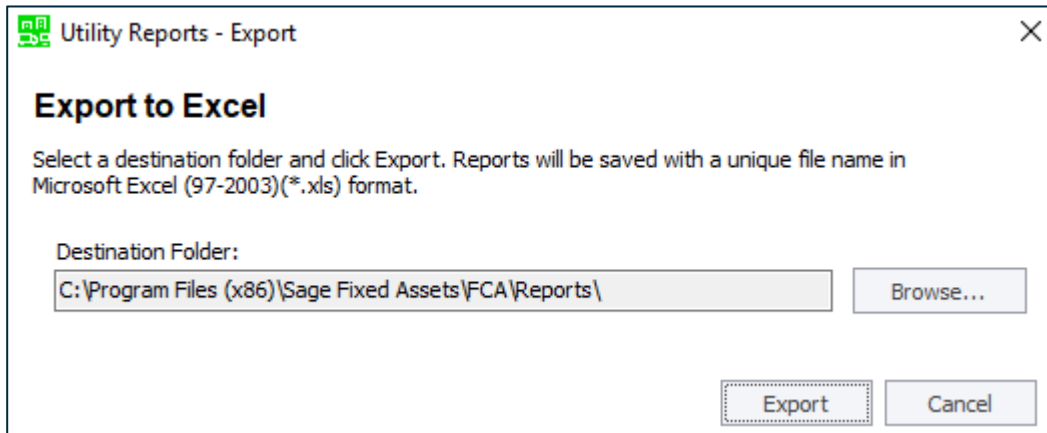

Sage Fixed Assets Scanner v2.1

The Sage Fixed Assets Scanner app for Android has the following updates:

- Filter the Asset List by New, Found, or Not Found status with a single tap
- Available September 2022 in the Google Play Store

Export Asset History Events report to Excel®

The Asset History Events report can now be directly saved as an Excel file for further analysis. This report is one of the six Asset Reports available in Utility Reports.

Asset Created history event for assets from Planning and AP/PO Links ❖

The History Tab of Asset Detail now includes an Asset Created event for assets created from Sage Fixed Assets—Planning and other external Sage applications.

Action	Date	Description	Source Application
Asset Created	August 03, 2022 18:11:16 PM	Asset was created	Sage Fixed Assets - Planning
Changed General Information	August 03, 2022 18:13:53 PM	Data in a general information field was changed	Sage Fixed Assets - Depreciation
Changed General Information	August 03, 2022 18:14:48 PM	Data in a general information field was changed	Sage Fixed Assets - Depreciation
Depreciation Calculated	August 03, 2022 18:15:40 PM	Depreciation was calculated through 8/31/2022	Sage Fixed Assets - Depreciation

Client label on Premier and Network programs ❖

Sage Fixed Assets Premier and Network installations now display “Client” next to the program name to quickly distinguish Client and Server programs.

Before

Uninstall or change a program

To uninstall a program, select it from the list and then click Uninstall, Change, or Repair.

Name	Publisher
Microsoft SQL Server 2016 Management Objects (x64)	Microsoft Corporation
Microsoft SQL Server 2019 (64-bit)	Microsoft Corporation
Microsoft SQL Server 2019 Setup (English)	Microsoft Corporation
Microsoft SQL Server 2019 T-SQL Language Service	Microsoft Corporation
Microsoft SQL Server Management Studio - 18.11.1	Microsoft Corporation
Sage Fixed Assets Premier	Sage Software, Inc.
Sage Fixed Assets Premier Server	Sage Software, Inc.

After

Uninstall or change a program

To uninstall a program, select it from the list and then click Uninstall, Change, or Repair.

Name	Publisher
Microsoft SQL Server 2016 Management Objects (x64)	Microsoft Corporation
Microsoft SQL Server 2019 (64-bit)	Microsoft Corporation
Microsoft SQL Server 2019 Setup (English)	Microsoft Corporation
Microsoft SQL Server 2019 T-SQL Language Service	Microsoft Corporation
Microsoft SQL Server Management Studio - 18.11.1	Microsoft Corporation
Sage Fixed Assets Premier Client	Sage Software, Inc.
Sage Fixed Assets Premier Server	Sage Software, Inc.

Sage 300 complex password support

Sage Fixed Assets now supports Sage 300’s complex password requirements when posting depreciation entries.

Defect Fixes

With this release, Sage made the following defect fixes to the indicated Sage Fixed Assets products. Fixes with no specific product notation apply to all products that include the feature.

Monthly and Annual Projection reports: Improved ability to process large datasets

Performance improvements have been made to the Monthly and Annual Projection reports, reducing unexpected application crashes when running with very large datasets.

Custom Import: Improved ability to import large datasets

Performance improvements have been made to Custom Import, reducing unexpected application crashes, especially when Beginning Date, Beginning YTD, and Beginning Accum data is included in the import.

Custom Import: “System Error” when importing a .xlsx file

Sage Fixed Assets—Depreciation, Tracking (Premier, Network, and Standard)

Applies to Canadian and Government or Nonprofit Organizations

Fixed an issue where a system error occurred when validating or importing a .xlsx file for Canadian and Government or Nonprofit Organizations during Custom Import.

“Missing Parameter” error when opening a custom Crystal Report

Fixed an issue where a “Missing Parameter” error displayed when opening a custom report with parameters. Sage Fixed Assets—Reporting now supports parameters.

Copy Book incorrectly overwriting Period Close information

Fixed an issue where the Period Close information was being overwritten when the “Overwrite existing asset data in destination book?” option was unchecked in the Copy Book dialog.

Other 179 deduction values are not copied when RM or RH is the default method for a book

Fixed an issue where values entered in the Tax Book for Other 179 Deductions did not default to books with a default depreciation method of RM or RH.

“Unable to Post” error when posting an asset with allocations to Sage Intacct

Sage Fixed Assets—Depreciation, Tracking (Premier, Network, and Standard)

Applies to Canadian and Government or Nonprofit Organizations

Fixed an issue where an “Unable to Post” error may occur when posting allocated depreciation entries to Sage Intacct’s general ledger.

Print Asset Information: Placed-in-Service Date on disposal detail incorrectly displays the asset's Acquisition Date

Fixed an issue where the Placed-in Service Date for a disposed asset is incorrect on the Disposal Detail report for Print Asset Information. The asset's Acquisition Date was displayed in error.

Unable to register Network product

Sage Fixed Assets—Depreciation, Tracking (Network)

Fixed an issue where an error message occurred when attempting to register Sage Fixed Assets—Network.

Error running Utility Reports when selecting an empty database

Fixed an issue where an error message occurred when running specific Utility Reports and an empty database was included. Empty databases can no longer be selected.

Product not using printer selected in Print Setup

Fixed an issue where the Microsoft Windows' default printer was used instead of the default printer selected in Sage Fixed Assets when printing reports.

Crystal Reports compatibility

Sage Fixed Assets 2018.1 through 2023.0 use SAP Crystal Reports runtime SP21. This may cause an issue with older Crystal Reports runtime versions used by other products.

You may experience a compatibility issue after upgrading to Sage Fixed Assets 2023.0 if you are also using Sage 100 (2017 and earlier) or Sage 300 CRE (v18.1 and earlier).

Resolution

If you are unable to run reports in one of these products after installing Sage Fixed Assets 2023.0, select the appropriate link for your product below to open the Knowledgebase article for steps to resolve the issue:

- [Sage 100 \(2017 and earlier\)](#)
- [Sage 300 CRE \(v18.1 and earlier\)](#)
